RE: LeTip International, Inc. / www.washingtonletip.com

Dear Mr. Selkowitz,

We represent LeTip International, Inc. My client demands that you cease using the domain washingtonletip.com. This domain was used for websites for LeTip chapters. You left LeTip in 2008 but you retained ownership of the domain. My client learned recently that you used this domain to publish a one page site that libels my client.

Your use of this domain infringes on my client's trademark rights. Consumers searching for LeTip in Washington find your site. This is confuses consumers and damages my client. Furthermore, the statements on the website are libelous to LeTip International and its executives.

You are infringing on my client's trademark, violating Federal anti-cybersquatting laws and defaming my client. Take down your site and cease using the domain washingtonletip.com. If you do not, then my client will take legal action against you. You have 30 days from the date of this letter to comply.

Sincerely,

Eric D. Morton
